

VERL@C RM

BENEFITS

- Resistance to use single pack system.
- Excellent, tough and hardwear resistant.
- Long life.
- Suitable for concrete and tar roads.
- Excellent flexibility.
- Available in various colours.
- Excellent glossy and reflective finish.

PRODUCT

Ready to use thermoplastic road marking coating.

USE

VERL@C RM is a hard wearing abrasion resistant road marking coating. VERL@C RM has good reflective glossy finish which can be used on concrete as well as tar roads.

DESCRIPTION

VERL@C RM protective coating is based on solvent free, epoxy resins together with selected pigments and thixotrope which enables a substantial film thickness to be applied on vertical surfaces. The cured film is extremely tough and has a smooth, hard, surface but with fairly good slip resistant properties.

VERL@C RM protective coating has excellent adhesion to concrete and metal surfaces, outstanding chemical resistance and is unaffected by oil, grease, petrol etc. It can be used in food processing areas since after curing it is taste free.

PROPERTIES

POT LIFE	: 4 to 6 hours,
DRYING TIME	: Touch dry 15 mins at 30°C and hard dry 4 hours at 30°C,
VISCOSITY	: 60 to 80 seconds,
SOLID CONTENT	: Approximately 40%,
COLOUR	: White, Yellow, Grey, Pink.

APPLICATION

Clean the surface and ensure free from dust and loose particles. Apply two coats by brush or spray.

PACKING & COVERAGE

1, 5 and 20 ltr. steel containers.

VERL@C RM will cover 6 to 8 m²/ltr. depending upon the surface.

SHELF LIFE & STORAGE

VERL@C RM will have a shelf life of 12 months in unopened containers when kept in dry conditions at a temperature between 5°C to 45°C. Storage at higher temperature or high humidity may reduce shelf life.

HEALTH & SAFETY

Gloves must be worn, and for overhead application prevent contact with eye. Any splashes on skin should be washed with water and medical advice should be sought. In closed areas, good ventilation must be strictly prohibited while using VERL@C RM.

QUALITY ASSURANCE

HAMCO SARL produce protective coatings, wood coating, decorative paint, water proofing system

TECHNICAL SERVICES

While new advances and changes will take place but one thing will never change is quality and meeting special needs of our customers. Our laboratory in Baroda and technical personnel & experts are available to provide additional information and technical assistance. We are eager to work with you in development of new product and resolve your problem.

Important note

The information given in this data sheet is based on both, the current development work and many years of field experience. Whilst every effort is made to ensure that the information is reliable, we cannot accept the responsibility for any work carried out with our materials as we have no control over methods of application, site conditions, etc. In view of the continuing research and development being undertaken in our laboratories we advise customers in their own interest to ensure that this data sheet has not been superseded by a more up-to-date publication. All products are sold subjected to our standard conditions of sale which are available on request. Field services, where provided, does not constitute supervisory responsibility.
